Well it has been a very strange end to the academic year to say the least. This week is the final week of the summer term. It has been wonderful to see so many faces in the 'bubbles' and see more faces during the transition days but it is not the same as having you all in and learning with your teachers in class.

We wish all of year 6 all the very best for September starting at their new secondary schools, we know you'll be fantastic and do your absolute best, we are so very proud of you.

Finally all the Rokeby staff would like to wish all our Rokeby families a safe and happy summer, don't forget to collect your summer holiday care package before the end of the week.

We will be open for the children on Wednesday 2nd September 2020.

Your teachers have been sent so many wonderful photos and messages via class dojo, please keep sending these through to your teachers. Each week we are including as many as we can on our newsletter.

Have a look at some of the wonderful photos that you have been sending to your teachers of your home learning and activities; writing at home , wall climbing, bike riding and planting.

This week the key worker group are having a space themed week. They have been busy making space rockets and making moon buggies.

The key worker group had a 'bird' themed week last week. Have a look at their amazing flying birds, hand print birds and sunset silhouette birds.

Homemade ice lollies.

Ingredients

- 120 grams fresh blueberries
- 120 grams fresh strawberries
- 120 grams fresh raspberries
- 120 mls coconut milk (8 tablespoons)
- 60 mls honey (4 tablespoons)

Equipment

- Ice lolly moulds

Instructions

- 1 Measure out your 3 different berries (strawberries, blueberries and raspberries) and wash them well.
- 2 Place them in a blender with your coconut milk and honey.
- 3 Blend until smooth. Don't worry if you can still see some pieces of blueberry skin in the mixture.
- 4 Pour the mixture through a sieve into a measuring cup or bowl. This gets rid of the seeds and little pieces of skin.
- 5 After sieving, pour the mixture into your 4 ice lolly moulds.
- 6 Freeze for several hours or overnight and enjoy your triple berry homemade ice lollies!

SUMMER READING CHALLENGE

This summer you are reading for your school!

We are taking part in a competition to read more pages than the other schools in Stowe Valley Multi Academy Trust. All we are asking you to do is read daily and fill in the form with how many pages you have read—if you have a younger child, you can also submit the pages a grown up has read to you. You can fill in the form every time you read, or keep a record and do it weekly if that is easier.

Every week, a leader board will be published saying which school has read the most—and we want to finish top of the league! Please complete the form here to log your reading:

Reading shapes brilliant minds. Readers see more clearly, more quickly & with more depth. We understand the world through stories.

D'you want to know where real magic lives? It lives within the pages of books. Reading for fun can change who you are and who you can be. 📖
