

### **English and Reading**

Our book for this half term will be 'Oliver And the Seawigs', a fantastic book by Philip Reeves and Sarah McIntyre.

We will be using this text to write: Diary entries, informal and formal letters; character descriptions; instructional texts; and our own short stories.

When reading, the children will have the opportunity to make predictions, read and retrieve information, as well as using evidence from the text to justify their answers and take on character roles.

### **Maths**

This half term we will be recapping some of the areas of the Year 2 Maths curriculum that we have missed due to our time off from school.

We will be recapping our knowledge of ones and tens, segmenting 2-digit numbers into tens and ones and place values.

We will be learning our threes, fours and eights times tables, as well as going over our times tables from Year 2 (twos, fives and tens times tables). We need to work on the speed we can recall our times tables.

### **Art – Illustrations**

This term we will be looking at a range of colour mixing techniques and blending skills, with the aim being for pupils to consistently produce watercolour washes and use blended colours to add depth to their work.

We will also be looking at a range of illustration styles, with a focus on the illustrator of our class text, Sarah McIntyre. Pupils will have the opportunity to produce their own illustrations to accompany segments off our class text and their own work.

Finally, we will also using clay to produce models of characters from our class text, as well as using junk modelling techniques to decorate them and give them 'seawigs'.

### **History – Great Explorers**

In our history this half term we will be looking at the lives and achievements of many great explorers throughout history, including Ibn Battuta, Robert Falcon Scott, Neil Armstrong and Ann Bancroft.

Our focus will be on their achievements and discoveries, and what impact these have on our lives today. We will use a range of sources to find out information these incredible people.

Pupils will have the opportunity to further their investigative skills as they will also have optional homework to find out more information on some of these explorers.

## **Year 3 Curriculum Overview- Autumn 1**

### **Science- Rocks, Soil and Fossils**

In science we will be looking at rocks, soil and fossils.

Pupils will learn about different types of rocks, how they are formed and will be conducting several investigations to determine their individual properties.

We will also be investigating how soil is formed and what goes into its making. Finally we will be learning about fossils and will make our own imprint fossils.

### **Computing**

Due to current social distancing guidelines, we will not be using the school laptops in our computing lessons this half term.

Instead we will be discussing safe and ethical ways to use the internet and looking at our digital footprints.

### **French**

This half term we will be beginning French by learning to say and recognise simple greetings.

Pupils will also be given the opportunity to use these newly learnt phrases in conversations.

### **Religious Education (R.E)**

This unit enables to children to reflect on other religions and how these live alongside Christianity.

This will involve looking at stories from different religions and discussing their meaning.

### **Physical Education (P.E)**

This term we will be focusing on gymnastics. They will learn a range of new techniques and develop their pre-existing ones.

Children will learn to work in small groups and use team work to create routines and transfer their skills to one another.
